BRIEF SUMMARY OF THE INVENTION

Insta French is a French door inserts that installs on the inside or outside of existing sliding glass doors or windows. The Insta French inserts attach to the inside of the doorframes or windows. No permanent fixtures are used. No tools are needed to install Insta French inserts. Insta French inserts can be easily removed for cleaning of window glass. Easily reinstalled to give a glamorous French door look.

Page 1

Insta French Inserts will come in various sizes and colors. To match existing door and window frames.

Insta French Inserts has no outer edge or framing. The door or window provides the framing effect.

Anyone can have a French door look without the pain rendering cleaning of small multiple panes of glass. No costly expense of replacing doors and windows. Insta French creates a whole new look in minutes.

DETAILED DESCRIPTION OF THE INVENTION

This invention relates to multi pane Inserts these structures are disclosed in US pat. No. 3,441,258 to Milton Kesser entitled Plastic False Muntin For Windows, US pat. No. 4,437,284 to James Cribben & William Ichter, Entitled Snap-On False Muntin System, US pat. No. 4,586,306 to Dale Weeb entitled Window Assembly and Grille Retaining Strip Hardware There for.

Insta French is a continuation of the above patents the differences is
that the Insta French Insert has no bracketing or retaining strips to attach to
the window. The bracketing is made in each cross bar of the insert which
slides into the window molding. Which make the Insta French insert more
versatile to all windows and doors.

Insta French is a vinyl insert, [Fig. 1] No Tools required for installation. Insta French is made one piece of solid vinyl. Made to fit the dimension of standard doors and windows. [Fig. 2 & 3]

Each insert is 1/4 inch thick. Each slat is 3/4-inch wide. At the end of each slat is a 1/16-inch thick and 1/16-inch long tab [Fig 5]. The tabs hold the Insta French Insert into door and windows. The extra 1/16 of an inch
vinyl tab slides under the molding around the window frame to hold the
insert into the window.

At the 2nd horizontal slat from the top, and at the 2nd horizontal slat from the bottom a 1/4-inch notch. The 1/4-inch vinyl is indented to 1/8 inch thick. The indented 1/4-inch notch gives the vinyl insert ability to be flexible for packaging. [Fig.4] Decorative caps are placed over notches during installation. When the vinyl insert is placed in the window opening caps
(Fig 6) are placed over the notches to make that insert firm, and holds the
insert tight against the window glass.

Page 3

The cap is made of the same vinyl as the insert, 3/4-inch wide, 1/2-inch in length. With a tab centered on the bottom, 1/8-inch by 1/4-inch thick. Caps cover the notches, [Fig. 6] and lock the Insta French insert into place.

Insta French Insert is molded into one solid piece of vinyl. It can be inserted into doors and windows in one easy step. Gives the illusion of stylist French doors. They are easily removed to wash windows and reinstalled in minutes.

Insta French vinyl insert is very strong and weather resistant. Insta French is for decorated purpose only.
